Education

Babu Banarasi Das University, Lucknow August 2023 – June 2027
Bachelor of Technology in Computer Science *Lucknow, India*

Town High School, Mairwa, Siwan 2023
Class XII – Bihar Board

DVM Public School, Siwan 2021
Class X – C.B.S.E Board

Projects

Cloth Couture – Full Stack E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Tailwind CSS |

- Built a full-stack e-commerce platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS.
- Implemented JWT authentication, admin dashboard, shopping cart, and Razorpay payment integration.
- Integrated Cloudinary for image uploads and deployed the application on Vercel, Render, and MongoDB Atlas.

Career AI RoadMap Platform | Next.js, Express.js, TypeScript, MongoDB, Gemini AI |

- Built a full-stack AI Career Roadmap platform using Next.js, Express.js, TypeScript, MongoDB, and Gemini AI for personalized career guidance.
- Implemented JWT authentication, OTP verification, RBAC, rate limiting, and CORS to build a secure, production-ready backend.
- Designed 12+ MongoDB schemas and set up CI/CD with GitHub Actions & Docker, deploying the application on Vercel and Render.

Developer Portfolio Website | React.js, Tailwind CSS |

- Designed and developed a personal portfolio to showcase projects and technical skills.

Achievements

- Finalist at Kalpathon Hackathon, building a full-stack service marketplace platform.
- Developed and deployed multiple real-world projects including an e-commerce platform and AI-based prediction system.
- Achieved high accuracy (~85%) in a machine learning model for student dropout prediction.
- Built and deployed a personal portfolio website to showcase projects and technical skills.

Certifications

- **Software Engineering Job Simulation – J.P. Morgan (Forage)** – Completed real-world tasks involving backend development and system design concepts.
- **Web Development Bootcamp – Udemy** – Learned full-stack development including React, Node.js, and APIs.
- **Master Programming (C, C++, C#, Java) – Udemy** – Built strong foundation in object-oriented programming and problem solving.

Technical Skills

Languages: JavaScript, Python, C++
Technologies: React.js, Node.js, Express.js, REST APIs
Databases: MongoDB
Tools & Practices: Git, GitHub
Relevant Subjects: Data Structures & Algorithms, Problem Solving, UI/UX Design, Artificial Intelligence & Machine Learning

Extracurricular

- Participated in multiple hackathons including Kalpathon Hackathon, reaching the final round.
- Actively involved in team-based project development and collaboration.
- Explored and built real-world projects beyond academic curriculum.
- Participated in technical discussions and peer learning activities.
